# How To Waltz

The waltz is a classic dance that's fun and easy to do. If your child already knows how to count to three, she's off to a great start! The waltz is also a good way to reinforce the concept of left and right.

1. **Start** by lining up, facing the front of the room. Step your **left** foot forward and count “1”
2. Step your **right** foot **forward** and to the right, like you're making an “L” shape, and count “2”
3. Bring your **left** foot to meet your right and count “3”
4. Step your **right** foot **backward** and count “4”
5. Step your **left** foot **backward** and to the left, like you're making an “L” shape, and count “5”
6. Bring your **right** foot to meet your left, count “6” and **repeat!**

\* For older children, show them how their steps make a square, or box, as they dance.

Practice a few times together, then add music. Moms, join in the fun and partner with your daughters. Don't forget to capture the fun on video!
