

Cutting is intended for grown-ups only.

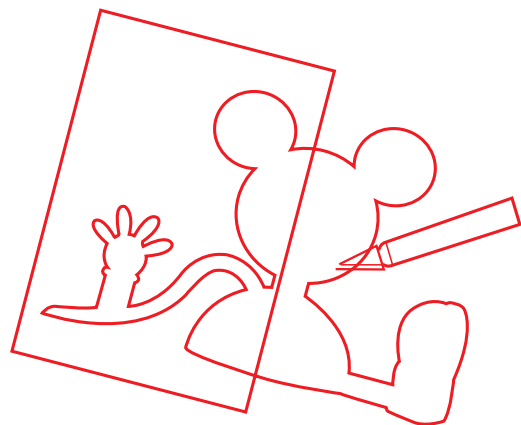

1. Print out the template of the Mickey Mouse Clubhouse, shown in this photo, on two pieces of paper and set aside to dry.

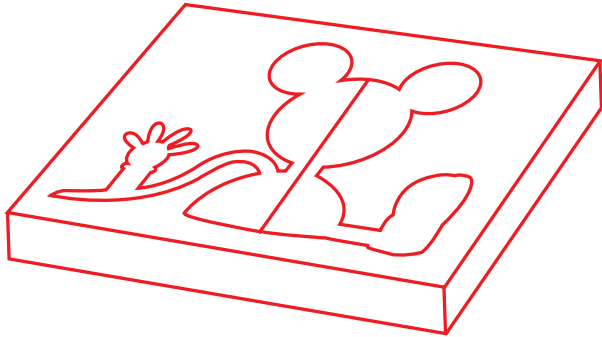

- 
2. Tape the two sides of the Mickey Mouse Clubhouse template down the center, melding the outline together to create the complete image of the Mickey Mouse Clubhouse.

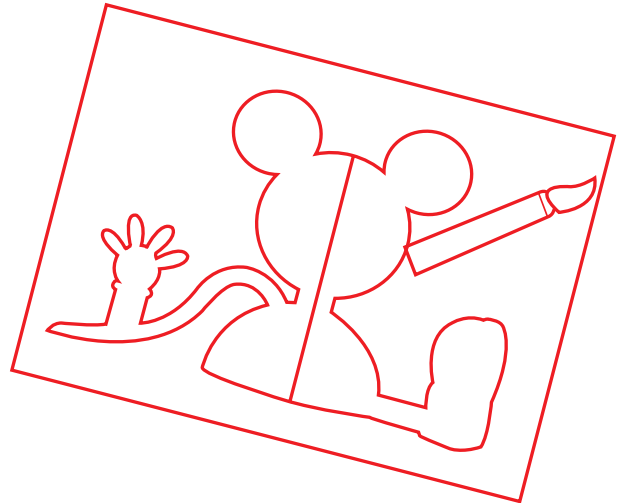

3. Cut out the outline, making sure to leave the line visible so you are reminded what color frosting to use in each area.

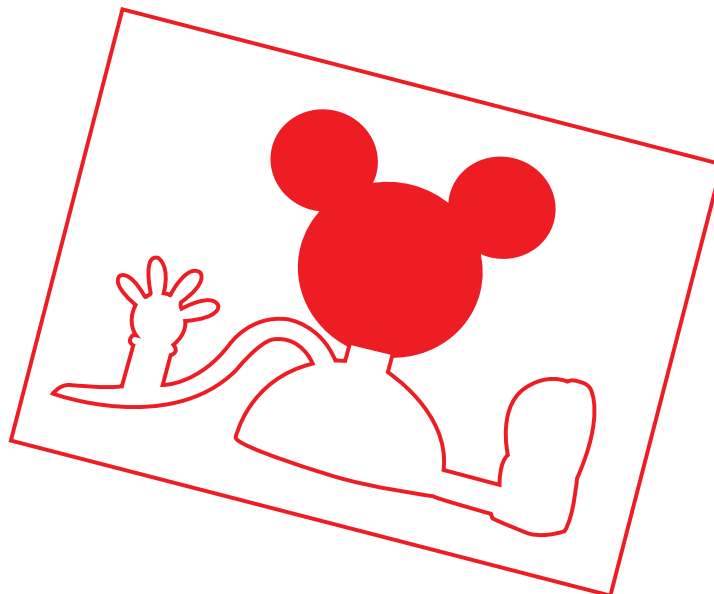

4. Place the outline in the middle of the cake.

5. Using the dull end of a paintbrush, trace the edge of your cutout lightly into the frosting.

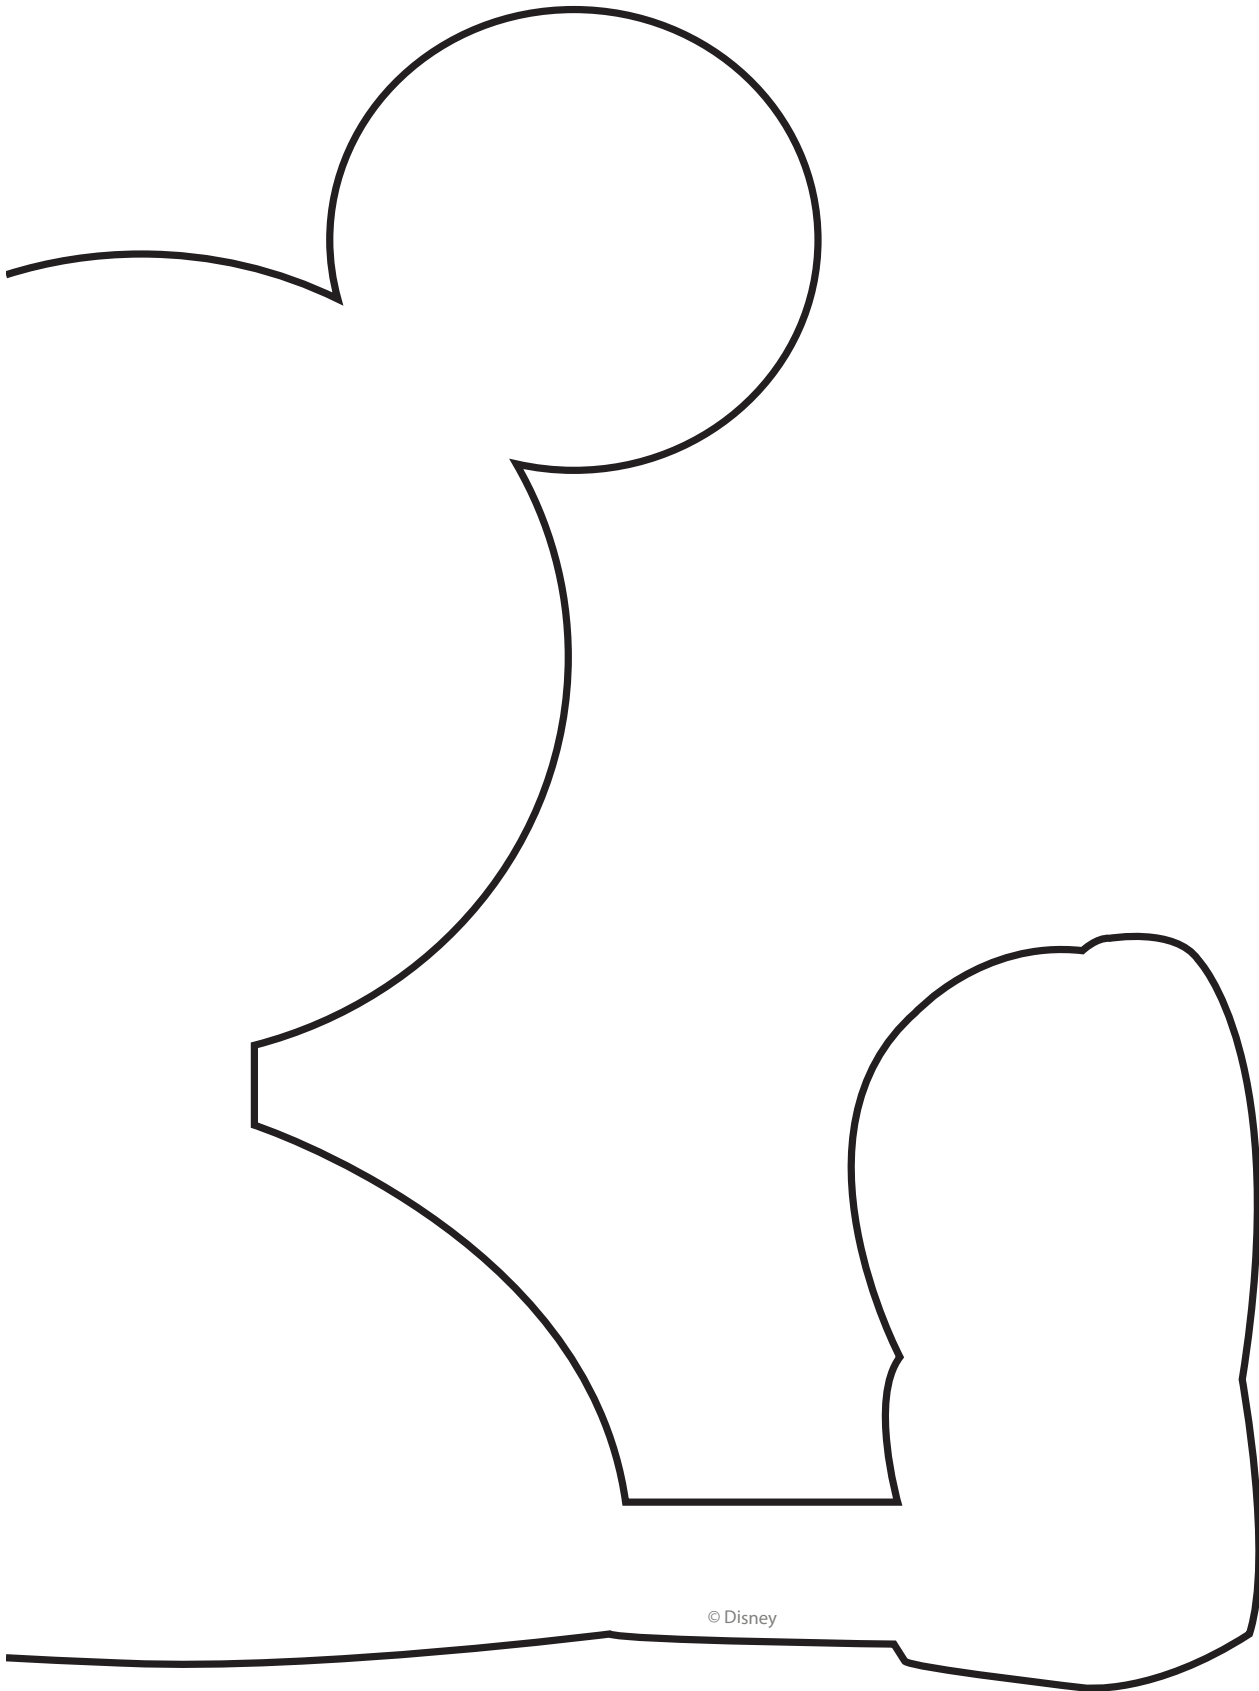

- 
6. Remove the paper from the cake, and fill in the outline you've drawn with the appropriate color frosting as shown in the photo.
