Mickey Mouse Clubhouse

Cutting intended for grown-ups only.

1. Print out the pages on regular paper or cardstock and cut out the club house and stand. Don't cut along the dashed lines. This is where you will fold the paper.
2. Fold the stand in half along the dashed line. Spread glue on the white side of the paper behind the design, leaving the white tabs on the sides glue-free. Make sure the two sides are lined up correctly. Press until the glue dries.
3. Fold the white tabs outward and glue them to the back of the club house. It should stand up like a picture frame when finished.
4. Add some characters and scenery and let the adventure begin!

Disney Family.com's printable crafts are specially designed with muted colors to not waste too much of your printer's color ink.
