

Cinco de Mayo Table Decoration

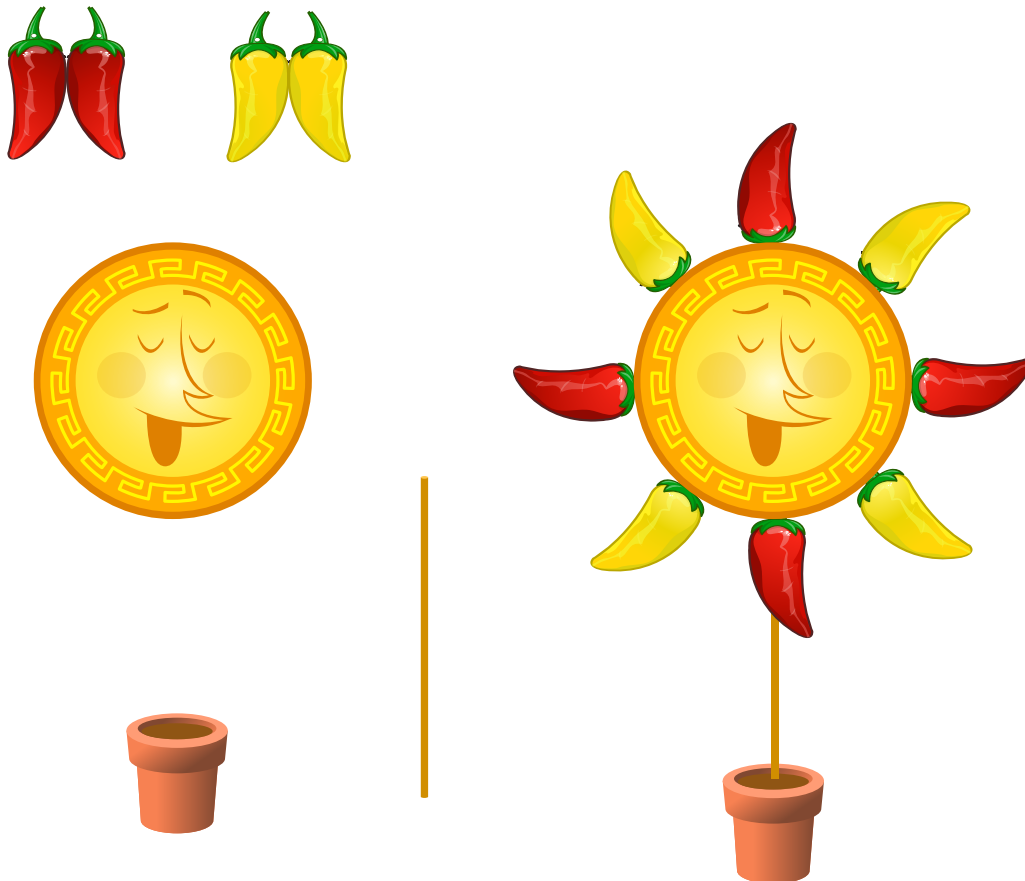

Cinco de Mayo Table Decoration

Step 1: Print out two copies each of the chili peppers & sun on cardstock. Cut out the chili peppers, then fold them in half and attach with double-sided tape or glue.

Step 2: As shown, glue the top of the chili pepper to the back of one of the sun pieces. Continue doing this all around the sun, alternating colors.

Step 3: As shown, tape a straw or dowel rod to the back of the sun. Using glue or tape, attach the second sun piece to the back of the first sun piece. This will complete your table decoration and make it double-sided. Insert the straw or dowel rod into a planter and display as a table centerpiece.

Step 1: Print out the chili pepper pages. With scissors, cut along the edges of the peppers, then fold the peppers in half so that the peppers are facing each other. Next, glue or tape both sides of the peppers together.

Step 2: Cut string or yarn (vary the lengths if you like) to form your garland.

Step 3: Punch a small hole towards the top of each chili pepper, then thread the string or yarn through as many chili peppers as you like. Print out multiple copies of the streamers to make a longer garland! You can secure each chili pepper to the string with a small piece of tape.
