

Count up the number of guests who will be attending your Thanksgiving dinner, then print out that number of place cards w/ feathers. Before you begin folding and gluing, write the names of the guests on each place card. You can also write "Happy Thanksgiving" or add stickers.

Next, cut out the turkey feathers and fold in half, and then glue both sides together.

On the place card holder, make the first four folds as shown in the diagram.

Glue tabs A and B to panels 1 and 2. Be sure to glue the A tabs first, then the B tabs. Glue the C tabs next. Fold light green triangular tab away from you to help the place card holder stand upright.

Your place card holder is now complete! After the glue has dried, add candy or mints (or anything you like) in the open area of the place card holder. Then set them out on the dinner table.
